

# ***Pull Reports***<sup>™</sup> ***END USER LICENSE AGREEMENT***

Version 1.1.0

The Pull Reports<sup>™</sup> Java Archive (JAR) file (the "Software Product") and any accompanying documentation are licensed and not sold. This Software Product is protected by copyright laws and treaties, as well as laws and treaties related to other forms of intellectual property. Full Draft, LLC or its subsidiaries, affiliates, and suppliers (collectively "Full Draft") own intellectual property rights in the Software Product. The Licensee's ("you" or "your") license to download, use, copy, or change the Software Product is subject to these rights and to all the terms and conditions of this End User License Agreement (the "Agreement").

## **Acceptance**

BY DOWNLOADING, INSTALLING, USING, OR COPYING THE SOFTWARE PRODUCT, YOU ACCEPT AND AGREE TO BE BOUND BY THE TERMS OF THIS AGREEMENT. YOU MUST AGREE TO ALL OF THE TERMS OF THIS AGREEMENT BEFORE YOU INSTALL THE SOFTWARE PRODUCT. IF YOU DO NOT AGREE TO ALL OF THE TERMS OF THIS AGREEMENT, YOU MUST NOT DOWNLOAD, INSTALL, USE, OR COPY THE SOFTWARE PRODUCT.

## **1. Definitions**

- a) The Software Product:** The Pull Reports<sup>™</sup> Java Archive (JAR) file.
- b) License File:** An encrypted file which holds license properties such as the License End Date and permitted number of Report Instances. License Files are required for all Software Product Deployments except Community Edition.
- c) Community Edition:** A Deployment of the Software Product in a Production Environment without a License File.
- d) Standard Edition:** A Deployment of the Software Product in a Production Environment with a valid License File. The Standard Edition includes all features of the Community Edition plus additional, exclusive features.
- e) Production Deployment:** One or more instances of the Software Product deployed within a Production Environment. In the case of multiple instances of the Standard Edition Software Product, the instances must be configured identically per License File. See Terms of Use (4).
- f) Production Environment:** The deployment setting where the Software Product is put into operation for the intended use by End Users. End Users rely on a Production Environment for organizational or commercial operations.
- g) Non-Production Environment:** A deployment setting used exclusively for development or installation testing, quality assurance, load testing or other form of technical verification. A

Non-Production Environment must NOT be relied upon for regular organizational or commercial operations. Additionally, a Non-Production Environment must NOT support intended use of the Software Product by End Users.

**h) License End Date:** The last day on which the License File is valid. Applicable to Standard Edition Deployments. The License End Date is set at time of purchase. License Files are typically sold in one year intervals from the date of purchase.

**i) Report Instance:** A single data service URL served by the Software Product and represented by a unique report configuration within an XML or Java Catalog Configuration. More information about the <report> element and the definition of a Report Instance is detailed in the Software Product Documentation.

**j) The Software Product Documentation:** Technical and usage documentation for the Software Product at <https://www.pullreports.com/docs>.

**k) Catalog Configuration:** A computer file or files containing the XML or Java definition of one catalog of reports to be served by the Software Product. The structure of a Catalog Configuration is detailed in the Software Product Documentation.

**l) End User:** The person or computer system which is the consumer or beneficiary of the Software Product. Examples include but are not limited to: a person who uses the Software Product to obtain a report and computer software which uses the Software Product to obtain a data service.

**m) Software Citation:** The notation on the Software Product's Ad hoc report creator interface below the Results Preview table or other location which cites the Software Product's name with an HTML hyperlink to the Software Product's website. The citation may include the words "Powered by" or other words to express the citation.

## 2. License Grant

**a)** Subject to the terms and conditions of this Agreement, Full Draft, LLC entitles you to a revocable, non-exclusive, non-transferrable, limited right to use of the Software Product. "Use" includes downloading of, initial installation of, installation of updates and upgrades for, and access to the Software Product.

**b)** The Software Product including all source code and documentation is the exclusive property of Full Draft, LLC. This Agreement is not an agreement of sale. No intellectual property rights or ownerships rights to the Software Product are transferred to you pursuant to this agreement, except as a licensee.

## 3. Restrictions

**a) Restrictions on Transfer:** Without first obtaining the express written consent of Full Draft, you may not assign your rights and obligations under this Agreement, or redistribute, encumber, sell, rent, lease, sublicense, or otherwise transfer your rights to the Software Product nor the Software Product itself.

**b) Restrictions on Use:** See the Term of Use (4) for detailed restrictions on the use of the Software. Additionally, you may not decompile, "reverse-engineer", disassemble, or otherwise attempt to derive the source code for the Software Product.

**c) Restrictions on Alteration**

You may not modify the Software Product or create any derivative work of the Software Product or its accompanying documentation. Derivative works include but are not limited to translations. You may not alter any files or libraries in any portion of the Software Product.

The restriction on alteration includes the removal of the Software Citation.

## 4. Terms of Use for Standard Edition

**a) Deployment of Standard Edition within a Production Environment:** This Agreement entitles you to install and use the Standard Edition Software Product in a Production Environment (1f). In the case in which more than one instance of the Standard Edition Software Product is deployed, each instance MUST have identical configuration relative to database content and Catalog Configuration. This means that each Standard Edition Software Product instance must respond identically to all identical HTTP requests served by the Software Product.

A deployment in which two or more instances of the Standard Edition Software Product are operational at the same time allows for redundant Software Product deployment to support high performance and high availability requirements. It does NOT allow you to serve more than the maximum number of unique Report Instances granted by the License File.

A example, VALID Standard Edition Production Deployment is two or more application servers which each serve an identical WAR file into which the Software Product is installed AND each Software Product has identical Catalog Configuration AND each Software Product connects to database(s) with identical content relative to the Software Product's operation AND each WAR contains a License File used by no other Production Deployment with different Catalog Configuration.

An example, INVALID Standard Edition Production Deployment is two or more application servers which each serve a WAR file into which the Software Product is installed, but at least one Software Product installation is not-identical to the other Software Product installations in regard to Catalog Configuration or database content.

Each deployment of a Standard Edition Software Product in a Production Environment must have a unique License File. A single License File only supports one Deployment in a Production Environment.

**b) Deployment of Standard Edition within a non-Production Environment:** There is no restriction on the number of instances of the Standard Edition Software Product which may be deployed within a non-Production Environment. However, each instance of the Software Product must NOT serve more than the maximum number of unique Report Instances granted by this license.

**c) Maximum number of Standard Edition Report Instances:** You must not exceed the maximum number of Report Instances granted by the License File when deploying the Standard Edition Software Product within ONE Production Environment. This number is set at time of purchase.

**d) Standard Edition Term:** This License File is effective for a limited period of time, and use of the Standard Edition Software Product exclusive features outside the term of this license is

forbidden. The Term represents the period of time starting with the day the license is granted up to and including the License End Date.

**e) Backup and Copy:** You may copy the Standard Edition Software Product as is reasonable and necessary for backup and recovery purposes.

## **5. Terms of Use for Community Edition**

**a) Deployment of Community Edition:** This Agreement entitles you to install and use the Community Edition Software Product in a Production or non-Production Environment without a License File without restriction except the restrictions noted in this Agreement (3).

**b) Maximum number of Community Edition Report Instances:** You must not exceed 5 Report Instances when deploying the Community Edition Software Product within ONE Production or non-Production Environment.

**c) Community Edition Term:** There is no restriction on the length of time the Community Edition Software Product may be used.

**d) Backup and Copy:** You may copy the Community Edition Software Product as is reasonable and necessary for backup and recovery purposes.

## **6. Technical Support and Maintenance**

**a) Upgrades and Updates:** You may download and install any available updates and upgrades.

**b) Technical Support:** Technical support is provided exclusively via the Software Product Documentation.

## **7. Limited Warranty**

**a) Limited Warranty:** Full Draft warrants that for a period of sixty (60) days from the date of purchase of a Standard Edition License File (“Warranty Period”), the Standard Edition Software Product will perform substantially in accordance with the Software Product Documentation. There is no warranty for the Community Edition Software Product.

**b) Limitation of Remedies and Damages:** Your remedy for a breach of this Agreement or of any warranty included in this Agreement is the correction or replacement of the Software Product. Selection of whether to correct or replace shall be solely at the discretion of Full Draft. Full Draft reserves the right to substitute a functionally equivalent copy of the Software Product as a replacement. If Full Draft is unable to provide a replacement or substitute Software Product

or corrections to the Software Product, your sole alternate remedy shall be a refund of the purchase price for the Software Product exclusive of any costs for shipping and handling.

Any claim must be made within the applicable warranty period. All warranties cover only defects arising under normal use and do not include malfunctions or failure resulting from misuse, abuse, neglect, alteration, problems with electrical power, acts of nature, unusual temperatures or humidity, improper installation, or damage determined by Full Draft to have been caused by you. All limited warranties on the Software Product are granted only to you and are non-transferable. You agree to indemnify and hold Full Draft harmless from all claims, judgments, liabilities, expenses, or costs arising from your breach of this Agreement and/or acts or omissions.

**c) Disclaimer of Warranties and Limitation of Liability:** UNLESS OTHERWISE EXPLICITLY AGREED TO IN WRITING BY FULL DRAFT, FULL DRAFT MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, IN FACT OR IN LAW, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OTHER THAN AS SET FORTH IN THIS AGREEMENT OR IN THE LIMITED WARRANTY DOCUMENTS PROVIDED WITH THE SOFTWARE PRODUCT.

Full Draft makes no warranty that the Software Product will meet your requirements or operate under your specific conditions of use. Full Draft makes no warranty that operation of the Software Product will be secure, error free, or free from interruption. YOU MUST DETERMINE WHETHER THE SOFTWARE PRODUCT SUFFICIENTLY MEETS YOUR REQUIREMENTS FOR SECURITY AND UNINTERRUPTABILITY. YOU BEAR SOLE RESPONSIBILITY AND ALL LIABILITY FOR ANY LOSS INCURRED DUE TO FAILURE OF THE SOFTWARE PRODUCT TO MEET YOUR REQUIREMENTS. FULL DRAFT WILL NOT, UNDER ANY CIRCUMSTANCES, BE RESPONSIBLE OR LIABLE FOR THE LOSS OF DATA ON ANY COMPUTER OR INFORMATION STORAGE DEVICE.

UNDER NO CIRCUMSTANCES SHALL FULL DRAFT, ITS DIRECTORS, OFFICERS, EMPLOYEES OR AGENTS BE LIABLE TO YOU OR ANY OTHER PARTY FOR INDIRECT, CONSEQUENTIAL, SPECIAL, INCIDENTAL, PUNITIVE, OR EXEMPLARY DAMAGES OF ANY KIND (INCLUDING LOST REVENUES OR PROFITS OR LOSS OF BUSINESS) RESULTING FROM THIS AGREEMENT, OR FROM THE FURNISHING, PERFORMANCE, INSTALLATION, OR USE OF THE SOFTWARE PRODUCT, WHETHER DUE TO A BREACH OF CONTRACT, BREACH OF WARRANTY, OR THE NEGLIGENCE OF FULL DRAFT OR ANY OTHER PARTY, EVEN IF FULL DRAFT IS ADVISED BEFOREHAND OF THE POSSIBILITY OF SUCH DAMAGES. TO THE EXTENT THAT THE APPLICABLE JURISDICTION LIMITS FULL DRAFT'S ABILITY TO DISCLAIM ANY IMPLIED WARRANTIES, THIS DISCLAIMER SHALL BE EFFECTIVE TO THE MAXIMUM EXTENT PERMITTED.

## **8. Interpretation of Agreement**

Licensee and Full Draft acknowledge and agree that this Agreement shall not be deemed to have been prepared or drafted by any one party. In the event of any dispute concerning this Agreement, Licensee and Full Draft agree that any rule of construction to the effect that any ambiguity in the language of the Agreement is to be resolved against the drafting party shall not apply.

## **9. Governing Law, Jurisdiction, and Venue**

This Agreement shall be governed and construed in accordance with the laws of the State of Colorado, without regard to Colorado's conflict or choice of law provisions, and any action arising out of this Agreement shall rest exclusively in the Larimer County (Colorado) District Court.

## **10. Severability**

If any provision of this Agreement shall be held to be invalid or unenforceable, the remainder of this Agreement shall remain in full force and effect. To the extent any express or implied restrictions are not permitted by applicable laws, these express or implied restrictions shall remain in force and effect to the maximum extent permitted by such applicable laws.
